

# Reflectys<sup>1</sup>

Universal composite for anterior  
and posterior restorations

Practical

Simple

Universal

Enhance your  
daily practice

# Keep a natural smile

## Key points\*

### Practical

- > Saves time in the chair (less time for the practitioner to choose, mix, and layer shades)
- > For anterior/posterior restorations

### Simple

- > To use and store
- > A kit of 3 shades, covering most restorations
- > To manage (in the office, in the chair, for the assistant, for the dentist)

### Universal

- > With a selection of Light, Medium, and Warm shades for an aesthetic result suitable for the great majority of clinical cases.
- > With harmonization and matching of natural tooth shades (anterior and posterior)

## Indications

- Class I, II, V of posterior teeth.
- Class III, IV, V of anterior teeth and cervical cavities (wedge shaped defect) involving root surfaces.

### Reflectys

3x 4g syringes (shades Light, Medium and Warm)  
+ 3 spatulas

RE-KIT-3
